1970 WAGE RATES, SALARIES AND HOURS OF LABOUR IN NOVA SCOTIA

Economics and Research Division
Nova Scotia Department of Labour
Halifax, Nova Scotia

HON. LEONARD L. PACE, Q.C.
MINISTER OF LABOUR

R. E. ANDERSON
DEPUTY MINISTER

F O R E W O R D

This publication contains data on wage rates, salaries and hours of labour in Nova Scotia industry as of October 1, 1970.

The report is prepared from information gathered by the Canada Department of Labour for the annual survey, Wage Rates, Salaries and Hours of Labour. The Economics and Research Division of the Nova Scotia Department of Labour has cooperated with the Canada Department in the conducting of the mail survey. The Division has translated this computerized information into detailed tabular form on industrial and regional bases.

The statistics are compiled by industry, province, county, and the six urban areas. In all, 60 industries, 17 counties, and six urban areas have been surveyed.

We wish to express our appreciation to the Nova Scotia employers whose participation in the survey has made possible the preparation of this report.

The survey was compiled under the supervision of Mr. Kenneth Horne by Mrs. Sharon Rozee and Miss Lynne Gavin, and typed by Miss Wendy MacKenzie.

JEAN DOBSON

GUIDE TO THE CONTENTS OF THE REPORT

This report presents information on wage rates and salaries by occupation and on hours of work in industry in Nova Scotia. The information covers the last normal pay period to October 1, 1970.

TECHNICAL NOTES

The Technical Notes outline the scope of the survey and describe the methods used in compiling the information included in the report. They also explain the nature and context of the tabular material presented, the terms used in the report and the criteria for publication.

PART 1: HOURS OF LABOUR

Information on standard hours of labour is included for the eight major industries as well as 68 sub-industries. The average standard hours per week are shown for each industry under the headings, Office and Non-Office. Non-Office includes maintenance trades, service occupations, and specific industry occupations.

PART 2: INDUSTRY WAGE RATES AND SALARIES

This section is composed of 60 separate industry tables of occupational wage rates. These industries come under eight general headings: Finance, Insurance and Real Estate; Forestry; Manufacturing; Mines (Including Milling), Quarries and Oil Wells; Transportation, Communication, and Other Utilities; Trade; Service; and Public Administration. Subject to our criteria for publication, each industry table presents information for a number of occupations characteristic of the industry being surveyed.

PART 3: PROVINCIAL WAGE RATES AND SALARIES

Certain office and non-office occupations were studied on a provincial basis. Included are 51 office occupations and 24 non-office occupations, for a total of 75. In these charts an average salary or wage rate is given.

PART 4: COUNTY WAGE RATES AND SALARIES

Seventeen of the 18 counties were studied, the exception being Richmond, for which none of the given information satisfied our criteria. The tables include all office occupations, maintenance trades, service occupations and specific industry occupations in each county where the criteria has been met. Specific industry occupations have been classified by major industries. For each occupation, the average and predominant range are included.

PART 5: URBAN AREA WAGE RATES AND SALARIES

In this report, six urban areas of Nova Scotia were studied. Each urban area includes not only the immediate city or town but also the entire surrounding area. Please see Appendix B for more details as to the delimitation of each area.

PART 6: INTER-INDUSTRY AND INTER-COUNTY OCCUPATIONAL COMPARISONS

Two tables concentrate on the comparison of 1968, 1969 and 1970 provincial wage rates for selected maintenance trades and office occupations while another relates trends in county and urban wage patterns between 1969 and 1970. Additional tables record wage trends between the county and the urban area within the county as well as wage changes in the same industry and occupation from one county to another.

APPENDIX

This final section of the report defines certain occupational terms which the reader may find useful in comparing wage rates. There is also a map showing the various urban centres as well as a list giving the delimitation of the areas covered.

The occupational index attempts to define certain selected occupations which the reader may find helpful when analysing rates between a similar occupational group. In other words, the job description states the difference between various occupational levels.

TECHNICAL NOTES

The complete survey of Wage Rates, Salaries and Hours of Labour covers over 1,000 establishments in Nova Scotia. Generally included are all reporting establishments having 20 or more employees in the industries and urban areas surveyed. However, returns from establishments having eight or more employees are included for the following industries: Commercial Printing, Printing and Publishing, Finance, Insurance and Real Estate, Auto Repair and Garages and Retail Trade.

The Federal Government conducts the survey by mail and a reporting form-questionnaire containing a short description of each occupation to be surveyed is sent to the employers. Occupational descriptions are provided to help employers identify the specific jobs for which wage information is requested. The survey questionnaire is broken into four parts.

1. General Questionnaire: Provides information on number of employees and hours of work, etc.

2. Office Occupations: Includes workers engaged in clerical, accounting and secretarial activities. Office employees are typically paid on a salary basis.

3. Maintenance Trades, Service Occupations and General Labourers: These are engaged in the provision of maintenance and auxiliary services closely connected with the production process.

4. Specific Industry Occupations: Includes those occupations particularly characteristic of the industry under consideration.

NATURE AND CONTENT OF THE TABLES:

The wage information contained in this report is presented in three types of tables. The first is an industrial breakdown on a provincial basis. The industry tables show the average and predominant range for each occupation. The wage information applies to office occupations, maintenance trades, service occupations and specific occupations.

The second group reports data on a regional basis which includes county and urban area breakdowns. In this section, information is presented by occupational classification. The specific industry occupations have been subdivided by major industries.

The survey includes a group of tables representing condensed wage data for selected occupations, by sex, industry, county, and urban area. The tables are, in the main, repetitive, but because of their comparative form the reader is introduced more readily to the wage trends provincially as well as regionally.

NATURE AND CONTENT OF THE TABLES (CONT'D)

Certain occupations were reported by the employer on both an hourly and weekly basis. Therefore, to make the data accurate and to report as many employees as possible, these cocupations were separated according to their pay periods (hourly and weekly). The occupations concerned are the following: Cleaner; and Watchman.

EXPLANATION OF TERMS

The term "average" as used in the report is the weighted average of straight time rates paid on a time basis in an occupation. To obtain this average, the wage rates or earnings in an occupation are multiplied (weighted) by the number of employees receiving each rate, the total product being then divided by the total number of employees in the occupation used in the calculation of the average.

The "predominant range" of rates and earnings included the middle 80 percent of the numbers of all employees reported in an occupation. In other words, the remaining ten percent of the workers received the highest figure shown in the range or more, and ten percent receive the lowest figure or less. No ranges are shown where the rates for an occupation apply to fewer than ten employees and also when there are ten or more employees having a range identical to the average.

"Standard hours per week" refer to the number of hours per week normally scheduled for office and non-office employees in an establishment and during which straight time or regular wage rates are paid. Averages of the standard hours are obtained by multiplying the number of standard hours by the number of workers in each establishment and dividing by the total number of workers.

EMPLOYEE COVERAGE

"Office Employees" include clerical, stenographic and secretarial personnel and non-supervisory white-collar technical personnel, such as, computer-personnel and draughtsmen. In addition, supervisory personnel who normally do the same work as the office employees they supervise are included.

"Non-Office Employees" include those engaged in production and assembling activities; those employed in storing, inspecting, handling, packing, warehousing, truck-driving and sales and service personnel; and driver-salesmen and their helpers. It also includes employees engaged in maintenance, repairs, janitorial and watchman services, and supervisors who normally do the same work as the production or service employees they supervise. Personnel who are on the payroll but do not work at the establishments' locations are also included.

CRITERIA FOR PUBLICATION

Generally, for an average to be published, the rates which have been calculated must apply to five employees in the occupation in three establishments, or to ten or more employees in two establishments, provided that 80 percent or more of the total number of employees is not reported by one of the two establishments.

These criteria are applied for two reasons: to avoid revealing the rates paid by any one establishment, and to ensure a reasonable degree of representativeness of the data.

1970 REPORT

This is the sixth annual survey published by the Nova Scotia Department of Labour. In this report the industries have been classified from the 1960 Standard Industrial Classification of the Dominion Bureau of Statistics. (Complete details on these classifications appear in the Standard Industrial Classification Manual, D.B.S. Publication 12-501.)

PART 1 - HOURS OF LABOUR

INDUSTRY	NUMBER OF ESTABLISHMENTS	NON-OFFICE		OFFICE

APPENDIX A

Salary rates for salespersons, both male and female, were reported according to the following definitions:

Salesperson - Class A

Requires little knowledge regarding the merchandise sold. Often works behind a counter, selling one or a variety of inexpensive commodities such as notions, candy, drug sundries, tobacco products, magazines, greeting cards, etc.

Salesperson - Class B

Requires enough knowledge of products to assist customers in making a selection. May sell various types of merchandise or specialize in a particular type of commodity such as wearing apparel, bedding, small electrical appliances, china, costume jewellery, general hardware, etc.

Salesperson - Class C

Requires detailed knowledge of products and considerable skill in salesmanship. Is often on salary and commission and may be required to follow up prospective sales by calling on customer at his home. Products sold tend to be higher priced, such as furniture, refrigerators, television sets, power tools, air conditioners, jewellery, etc.

Only non-commissioned salesmen have been included in this survey.

APPENDIX B

The following are the delimitation of the six Urban Employment Areas[1] for Nova Scotia as shown on the map on the last page.

Amherst - Area bounded by a line beginning at Nappan on the Chignecto Canal connecting with Hastings northeast of Nappan, then bending back to the Nova Scotia - New Brunswick boundary in the direction of Sackville. Area includes all above-named Nova Scotia centres.

Halifax - Cities of Halifax and Dartmouth; Armdale and Fairview, Rockingham Area and North Dartmouth Area, Cole Harbour and Eastern Passage Area, Herring Cove and Spryfield Area.

New Glasgow - Area bounded by a line from Logan Point to the town of Pictou, south to the villages of Alma, Westville and Eureka, north to Stellarton, New Glasgow, Trenton, and ending in Pictou Harbour. Area includes all above-named centres.

Sydney - Area bounded by a line drawn from Point Aconi to the little Bras d'Or River along St. Andrew Channel to the village of Barachois. From here east to the village of Gibbon ending at Cape Perce. Area includes all above-named villages.

Truro - Area bounded by a line drawn from the village of Clifton, north to the village of Belmont, east to the village of Riverdale, southwest to the village of Brookfield and back to Clifton. Area includes all above-named villages.

Yarmouth - Area bounded by a line from Sandford on Highway 1 to Ohio on Highway 10 to Arcadia on Highway 3 and ending at Chebogue Point. Area includes all above-named centres.

---

[1]Dominion Bureau of Statistics, Part 1 - Delimitation of Urban Employment Areas. Ottawa, Ontario.

APPENDIX C

SELECTED OCCUPATIONAL INDEX

OFFICE OCCUPATIONS

OFFICE MACHINE OPERATORS

BOOKKEEPING-MACHINE OPERATOR (FEMALE)

Operates a bookkeeping or accounting machine to keep a record of business transactions.

BILLING-MACHINE OPERATOR (FEMALE)

Operates a computing type billing machine (combination typing and adding machine) to prepare customers' statements, bills and invoices, usually from data prepared by others.

CALCULATING-MACHINE OPERATOR (FEMALE)

Operates an electrically or manually powered automatic calculating machine to perform basic arithmetic computations in business, accounting or statistical reports.

TYPISTS, STENOGRAPHERS AND SECRETARIES

TYPIST, JUNIOR (FEMALE)

Types letters, reports, summaries or similar work from typed, printed or written matter where set-ups and terms are generally clear and follow a standard pattern. May perform similar work on stencils.

TYPIST, SENIOR (FEMALE)

Types letters, reports, tabulations, charts, and similar material: combines material from several sources into one typing operation; types tables, reports and other material from very rough and involved drafts; copies material where close attention is required due to the frequent and varied use of technical and unusual wording. May perform similar work on stencils or hectograph originals.

TRANSCRIBING-MACHINE OPERATOR, SENIOR (FEMALE)

Types letters, reports, or similar work by transcribing dictation from a recording machine. The work is generally of a difficult nature involving varied vocabulary and the frequent use of unusual words and expressions. May occasionally type from written copy; may be required to type stencils.

STENOGRAPHER, JUNIOR (FEMALE)

Under general supervision, takes and transcribes dictation, involving a normal range of business vocabulary, from senior employees as required; types material in prescribed form. May perform related routine clerical duties. May cut stencils for use in duplicating machine. May work in stenographic pool.

STENOGRAPHER, SENIOR (FEMALE)

Under general supervision, takes and transcribes dictation, generally of a difficult nature involving varied vocabulary and frequent use of unusual words and expressions, from various senior employees as required; performs related routine clerical duties. May cut stencils for use in duplicating machine. May work in stenographic pool. Does not perform duties normally associated with those of a secretary.

SECRETARY, JUNIOR (FEMALE)

Performs stenographic and clerical duties for one or more officials of an establishment: takes and transcribes dictation, generally involving unusual terms and expressions; sets up and maintains files and records, performing routine office functions; handles telephone calls, but has little or no responsibility for arranging appointments, meeting visitors, or answering correspondence on own initiative. Has no supervisory responsibilities.

SECRETARY, SENIOR (FEMALE)

Performs secretarial and clerical duties for one or more officials, such as division, department or branch head or officials of comparable rank in an establishment; takes and transcribes dictation; answers routine correspondence on own initiative; handles confidential reports and maintains files; handles telephone calls and arranges appointments. Has no supervisory responsibilities.

CLERICAL OCCUPATIONS

OFFICE BOY

Performs a variety of minor clerical and routine unskilled duties about a business office such as furnishing workers with clerical supplies from stock, delivering verbal and written messages, sealing and stamping envelopes, running errands and distributing and collecting mail.

FILING CLERK (FEMALE)

Keeps correspondence, invoices, and other records arranged systematically in file cabinets or other cases: locates and removes material as requested; records material removed; classifies material to be added.

TELEPHONE-SWITCHBOARD OPERATOR (FEMALE)

Operates a telephone switchboard to relay incoming, outgoing, and interoffice calls; takes messages for persons absent, keeps record of long-distance calls, and checks telephone bills. May perform duties of receptionist.

TELEPHONE-SWITCHBOARD OPERATOR - RECEPTIONIST (FEMALE)

Operates an office switchboard to relay incoming, outgoing, and interoffice calls and acts as Receptionist: as operator, takes messages for persons absent, keeps record of long-distance calls, and checks telephone bills; as Receptionist, directs visitors. May keep a record of visitors, time of call and person called on. May perform various routine clerical type duties in spare time.

COST CLERK (MALE)

Under direction, calculates cost of different aspects of the business and presents information in form required: selects records such as time sheets, payrolls, production sheets, material accounts, and operating charts; extracts data required for calculation; compiles cost figures and prepares required reports. May prepare a composite report showing total costs, selling prices, and profit.

ACCOUNTING CLERK, JUNIOR (MALE)

Under supervision, performs one or more of the routine standardized accounting operations, such as posting simple journal vouchers; posting accounts payable vouchers; reconciling bank accounts; posting subsidiary ledgers controlled by general ledgers. A knowledge of accounting and bookkeeping principles is not required. Job is generally found where routine accounting work is subdivided on a functional basis among several workers.

ACCOUNTING CLERK, SENIOR (MALE)

Under general direction, follows standardized procedures and accounting practices in performing duties of a varied or specialized nature in keeping one or more sections of a complete set of books or records of the business transactions of an establishment: work involves duties such as posting and balancing subsidiary ledger or ledgers; coding invoices or vouchers with proper accounting distribution; summarizing and analysing transactions; preparing regular and special reports; carrying on correspondence regarding routine transactions. A working knowledge of general accounting and bookkeeping procedure is usually required. Job is generally found where routine accounting work is subdivided on a functional basis among several workers.

BOOKKEEPER, SENIOR (MALE)

Keeps a complete and systematic set of records of all business transactions of an establishment: examines and records data in appropriate record books or on special forms; balances books and compiles reports at regular intervals to show receipts, expenditures, accounts receivable, accounts payable, and other items pertinent to the operation of a business. May calculate and arrange for payment of wages.

MATERIAL RECORD CLERK (MALE)

Keeps an office record of the type and quantity of materials ordered, received, appropriated, available, and withdrawn; issues requests for stock replenishment based on predetermined minimum, or notifies others of impending shortages; prepares necessary reports.

ORDER CLERK (MALE)

Receives orders for material or merchandise by mail, by phone, or personally from a customer: gives or sends price quotations to customers and makes out order forms; sends or distributes, to the respective departments, orders to be filled.

CLERK, INTERMEDIATE (MALE)

Under limited supervision, performs semi-routine clerical duties in accordance with established procedures of moderate complexity and requiring some judgement in the selection and interpretation of data: follows a standardized pattern in carrying out assignments and performs such types of work as checking invoices, preparing customs entries, posting data in record books, and preparing standard reports or summaries. May compile statistics from source materials such as production and sales records, personnel records and questionnaires, may code data, and may check and correct listings from electronic computers.

CLERK, SENIOR (MALE)

Under little or no direct supervision, performs advanced and complicated clerical duties requiring the exercise of considerable judgement and independent analysis and a considerable knowledge of departmental or company procedures: performs such types of work as preparing complex reports or maintaining complicated records, coordinating reports which require extensive preparation or involved calculations and control functions, and preparing special reports or summaries. May verify accuracy, and edit input-output data from computers by reviewing or examining listings checked by intermediate clerks with source materials.

MANAGER, OFFICE (MALE)

Supervises and coordinates activities of personnel in centralized clerical functions of organizations: organizes office operations such as typing, bookkeeping, preparation of payrolls, and other clerical services. Maintains efficient flow of work, directs supervisors responsible for other clerical and administrative functions and requisitions supplies and equipment. May perform clerical duties such as bookkeeping and making up payroll.

DRAUGHTSMAN, SENIOR (MALE)

Prepares the more complex working plans and detail drawings of cross sections, charts, maps and diagrams from rough or detailed sketches or notes: draws to scale by use of draughting instruments; makes difficult computations such as those involved in strength of materials, beams, and trusses; verifies completed plan or drawing, checking dimensions, materials to be used and quantities; writes specifications; makes adjustments or changes in drawings or specifications as required. May carry out routine draughting assignments. May specialize in one field such as mechanical or electrical draughting.

ELECTRONIC DATA PROCESSING PERSONNEL

PROGRAMMER, SENIOR (MALE)

Under general supervision, develops and prepares machine logic flowcharts for the solution of business, engineering and/or scientific problems through the use of electronic data processing equipment. May give some direction and guidance to juniors. Analyses problems outlined by systems analysts in terms of detailed equipment requirements and capabilities. Designs detailed machine logic flow charting. Verifies program logic by preparing test data for trial runs. Tests and debugs programs. Prepares instruction sheets to guide computer operators during production runs. Evaluates and modifies existing programs to take into account changes in systems requirements or equipment. Configurations.

COMPUTER OPERATOR, SENIOR (MALE)

Under general supervision, monitors and controls an electronic computer by operating the central console. Usually competent to work at the highest level of all computer operation phases while working on his own most of the time. May give some direction and guidance to juniors. Studies program operating instruction sheets to determine equipment setup and run operation. Confers with technical personnel in the event errors require a change in instructions or sequence of operations. Maintains operating records such as machine performance and production reports.

KEY PUNCH OPERATOR, SENIOR (FEMALE)

Operates alphabetic and/or numeric key punch machine to transcribe data from source material onto punch cards. Records and verifies accounting and statistical data on punch cards, working from a wide variety of source documents and coded material. May assist in the scheduling of key punch functions.

TABULATING-MACHINE OPERATOR (MALE)

Operates machine that processes data from tabulating cards into printed records: wires and installs tabulating machine plug board (control panel) or inserts prewired control panel. Positions stack of cards to be tabulated and starts machine. Observes machine for malfunctioning and removes jammed cards. Routes processed cards to next work station. May operate auxiliary equipment. May file cards.

SELECTED OCCUPATIONAL INDEX

MAINTENANCE OCCUPATIONS

CARPENTER

Constructs and maintains in repair structural woodwork and equipment: performs duties such as making, installing, or repairing office furniture, doors, partitions, floors and building framework, using carpenter's hand tools, portable and stationary power tools, and measuring instruments.

ELECTRICIAN

Maintains, repairs and installs electrical systems and equipment: inspects, dismantles, repairs or installs equipment such as circuit breakers, controllers, generators, motors, switchboards, transformers, and other electrical mechanisms, using hand tools and measuring and testing instruments; replaces defective wiring and fixtures.

PIPE FITTER

Determines defects in and maintains piping systems for steam, gas, water, air, acid and paints in establishments: follows blueprints or drawings to determine work aids and procedures, using knowledge of high and low pressure systems, and pressure capacities of piping materials. Measures, cuts, threads and installs pipes, valves, gauges and other fixtures. Paints and insulates pipe and fittings.

PLUMBER AND STEAMFITTER

Installs, modifies, repairs and tests the water and gas distribution systems, sewer systems, steam or hot water systems: working from blueprints, sketches, specifications, or personal observations makes all necessary preparations for his own work, such as planning and layout.

TOOL AND DIE MAKER

Makes and repairs dies, cutting tools and workholding fixtures: studies blueprints or drawings and plans work procedure; selects suitable metal stock and marks guide lines, using precision measuring and making instruments; sets up and operates any or all of the metal working machines found in a machine shop to shape the stock; working to close tolerances, finishes, fits, and assembles parts. May design dies, tools, jigs, and work-holding fixtures.

MILLWRIGHT

Maintains, repairs, installs and moves heavy machines and equipment: inspects plant equipment for defects; plans work and layout from blueprints and specifications; dismantles, repairs, and reassembles machines and equipment; prepares machine foundation; installs and aligns new machines and equipment; changes plant layout; makes operating adjustments.

MACHINIST

Diagnoses causes of malfunctions in industrial machines, dismantles machines and examines parts for defects. Sets up and operates machine tools to repair or make machine parts. Installs parts, assembles machine and verifies correction of malfunction.

MECHANIC (MACHINE REPAIRMAN)

Maintains and repairs machinery and mechanical equipment: examines machinery to diagnose source of trouble; dismantles machine after locating defect; replaces defective part, obtaining replacement from stock, or having part made by machine shop; reassembles machine and makes operating adjustments.

WELDER

Welds metal parts together to fabricate metal shapes, or articles or to repair worn or damaged metal objects as specified by sketches, diagrams or sample parts: prepares metal pieces for welding; assembles welding apparatus and selects suitable welding rod; welds metal parts by means of electric or acetylene welding apparatus. May join pieces of different metals by brazing.

SELECTED OCCUPATIONAL INDEX

SERVICE OCCUPATIONS

STATIONARY ENGINEER

Operates and maintains stationary engines, refrigeration units, and other mechanical equipment such as generators, compressors, motors, and turbines: reads meters and guages and adjusts controls of equipment to verify specified operating conditions; lubricates, and makes minor repairs to equipment; keeps records of temperature, hours of operation, and fuel consumption. Must hold Provincial Government certificate. May fire boilers or supervise a stationary fireman who is responsible for that phase of the work.

STATIONARY FIREMAN

Tends portable or stationary high pressure boilers that supply heat or power for engines, steam powered equipment, or industrial processes: regulates flow of fuel such as gas, oil or pulverized coal into firebox. Reads guages and moves controls to maintain specified steam pressure and water level in boiler. Removes ashes from firebox and may clean boiler. May be required to hold Provincial Government certificate.

BOILER OPERATOR

Operates automatically fired boilers to generate steam that supplies heat or power for buildings or industrial processes: lights gas or oil fired burners. Observes pressure, temperature and draft meters on panel and adjusts controls of equipment to verify specified operating conditions of automatic combustion control system.

CLEANER (MALE)

Sweeps, washes and polishes floors, walls and windows, and services washrooms; collects and disposes of refuse. May keep grounds tidy. May remove snow from sidewalks, driveways and platforms.

PASSENGER ELEVATOR OPERATOR (MALE)

Operates an elevator to convey passengers between floors of an establishment, starting and stopping elevator, and opening and closing safety gates and doors. Does not act as starter or despatcher.

WATCHMAN

Makes periodic inspection tours about building and grounds to protect property against fire, theft, and illegal entry; examines doors, windows, and gates to see that they are properly secured and not tampered with; watches for irregularities such as broken water pipes. May operate elevator at night. Does not carry firearms.

SHIPPER

Assembles, packs and loads merchandise or material for shipment or packs outgoing shipments, labelling, billing and weighing as required; assembles and loads containers into trucks, trailers or freight cars. May check outgoing orders against shipping instructions. May unload and store incoming supplies.

INDUSTRIAL TRUCK OPERATOR

Drives gasoline and electric-powered industrial truck or tractor, equipped with forklift, elevating platform, or trailer hitch, to push, pull, lift, stack, or tier merchandise, equipment, or bulk materials in warehouse, storage yard, or factory: Positions fork or lifting platform under loaded pallets, skids or boxes, or hooks the trucks to trailer hitch, and transports load to designated area. Unloads and stacks material. May service truck and make minor repairs.

TRUCK DRIVER, LIGHT

Drives truck with capacity under 3 tons to transport materials, merchandise equipment and personnel to and from specified destinations such as railroad stations, plants, residences, offices, or within industrial yards: verifies load against shipping papers. Prepares receipts for load picked up. Collects payment for goods delivered and for delivery charges. May load and unload truck. May make minor repairs.

TRUCK DRIVER, HEAVY

Drives truck with capacity of more than 3 tons to transport heavy or bulky merchandise, materials or equipment performing some duties as Truck Driver, Light, as described above.

LABOURER, PRODUCTION (MALE)

Performs various unskilled light or heavy manual duties in departments engaged directly in production, frequently moving from one duty to another: performs duties such as moving empty, partially filled and filled tote boxes or other containers to and from processing operations, removing waste products to disposal areas, cleaning machinery or equipment in production areas; uses simple tools and equipment in performing duties.

LABOURER, NON-PRODUCTION (MALE)

Performs various unskilled light or heavy manual duties such as lifting, carrying, moving and stacking materials or equipment, hand-shovelling loose materials, collecting and disposing of refuse, digging and levelling roads and ditches; uses simple tools and equipment in performing duties.
